

Welcome to Insolvency Support Services

Insolvency Support Services is an award-winning provider of a uniquely complete range of support services to the UK insolvency market. Whatever the size and scope of your business, and the level of support that you require, we can provide bespoke services as one off projects, on an ongoing basis, or as an integral part of your team.

- Technically comprehensive, practical training and education.
- Flexible, cost-effective resourcing solutions.
- Support to ensure your compliance is up to date and robust.
- Efficient, value for money back office support.

If you are looking to supplement your existing compliance structures, we can design and implement a full suite of processes and procedures to support and protect your business. Alternatively you can use us as a regular compliance function for your practice.

Perhaps you've identified a specific development requirement. Use us to run your project without the opportunity cost of committing your chargeable staff to the job.

Combining technical, practical insolvency expertise with extensive commercial experience, we work in partnership with a diverse group of clients throughout the UK. Call us today to see how we can help boost your business's performance.

PRACTICE SUPPORT

Your business needs to be efficient and profitable. To manage your overheads and costs, and maximise your work in progress and recoveries, takes time and resource.

Not every firm can afford an internal compliance department, or find the time to keep up to date with constant change. Our regulators demand efficient controls and internal management processes, while creditors demand you do so at minimal cost.

And sometimes our work can be challenging. We face difficult situations regularly. Not all decisions are easy and there may be times you would benefit from an independent review of the work that has been done and some practical, commercially viable suggestions for solutions, framed within your statutory powers.

ISS can offer you a range of services to support your practice: speak to us about cost-effective design and implementation of process-driven solutions.

- WIP Reviews
- Case Investigations
- System Reviews
- Regular Case Reviews
- Complex Case Reviews
- Technical Support
- Court Reports

The whole team is very professional, and the directors are technically brilliant.

OUTSOURCING

Insolvency work can be cyclical. And when you are busy, it can be difficult to find extra capacity at short notice or at a reasonable cost. We recognise that you can experience significant peaks and troughs in your workflows and that operating with a flexible work model can maximise your profits.

ISS can provide your business with a flexible resource solution with various practice support offerings available on a regular or ad-hoc basis. This supports the smooth and efficient running of your practice, enabling you to continually adapt to change, and allowing you to manage capacity in your business.

Here are just some of the ways that we can add resource to your business. For more options regarding any aspect of case management processes, contact us to discuss your requirements.

- Case Closure Programmes
- Claims Handling and Adjudication
- Trading Support
- Locum Services
- Prescribed Part Distributions

COMPLIANCE

The insolvency market continues to evolve with considerable legislative and regulatory changes in Scotland and the UK.

We sit on various R3 and IPA committees, and we actively contribute to government consultation responses, SIP working parties and the development of practical responses to statutory and regulatory change.

Who better than ISS Compliance to ensure that your systems and processes are up to date, and fully compliant? Speak to us about the following services:

- Checklists
- Document Work Packs
- Compliance Reviews
- Self-Certifications Reviews.
